

Detailed Single Year Tables
Category of Change: Level of Monthly Benefits (PIA)

Proposed Provision: Progressive indexing of PIA formula factors beginning with individuals newly eligible for OASI benefits in 2013 through 2062. Create new bend point at the 30th percentile of earners. Maintain current-law benefits for earners at the 30th percentile and below and reduce upper 2 formula factors (32% and 15%) such that maximum worker benefit is reduced by 1.2 percent per year as compared to current law, for the years that progressive indexing applies. Disability benefits are not affected by the proposal. Disabled worker beneficiaries, upon attaining normal retirement age, would be subject to a proportional reduction in benefits based on the worker's years of disability.

Proposal					Change from Present Law		
Expressed as a percentage of present-law taxable payroll					Expressed as a percentage of present-law taxable payroll
