

APPENDIXES

APPENDIX I. ASSUMPTIONS, METHODOLOGY, AND DETAILS OF LONG-RANGE COST ESTIMATES

The basic assumptions used in the long-range estimates for the old-age, survivors, and disability insurance system are described in this appendix. Also given are more detailed data in connection with the results of these estimates.

Population

Projections were made of the United States population (including overseas areas covered by the old-age, survivors, and disability insurance program) for future quinquennial years, by 5-year age groups and by sex. The starting point was the population on July 1, 1965, as estimated by the Bureau of the Census from the 1960 census and from births, deaths, and migration in 1960-65. This population estimate was increased to allow for probable under-enumeration in the 1960 census and adjusted for differences in the geographical areas covered by the estimate of the Bureau of the Census and those covered by the old-age, survivors, and disability insurance system.

In the projections for both cost estimates it is assumed that mortality rates will decline until the year 2000. In the high-cost estimates, mortality rates for the year 2000 are, on the average, about 73 percent of the 1959-61 level. The mortality is projected to decrease by about 40-55 percent at the younger ages, but with the rates at the older ages showing somewhat smaller improvements. The low-cost estimate assumes exactly half of the improvement in mortality used in the high-cost estimate.

In the low-cost estimate, fertility rates are assumed to decrease slowly until reaching a level in 1985 roughly equivalent to about 83 percent of the average rates prevailing in the period 1960-65. The high-cost fertility rates decrease more rapidly and reach an ultimate rate in 2010 equivalent to about 68 percent of the 1960-65 experience. Both estimates assume a small amount of net immigration.

The low-cost estimate is based on high fertility and high mortality, while the high-cost estimate assumes low fertility and low mortality. This makes the high-cost population relatively much older than the low-cost population, which is reasonable in view of the fact that benefits to aged persons account for more than 80 percent of the cost of the system. Complete details about the population projections are given in Actuarial Study No. 62, Social Security Administration.

Employment

Assumptions as to the percentage of the population who have covered employment during a year were made for each age group by sex for each quinquennial year. The estimated average percentages for 1964-68 for males were projected to remain level except for the older ages where they were assumed to decrease for both the low-cost and high-cost assumptions (thus recognizing the possibility of higher retirement rates). An increase was assumed for females, except for the very old ages; these increases are higher in the middle ages and are a continuation of trends in the past.

The foregoing assumptions are consistent with the assumptions as to the average unemployment rate in the future. A depression lasting several years could substantially increase the cost, but it is believed that any periods of low employment would be of relatively short duration and would have virtually no long-range cost effect.

Earnings

Level average earnings at about the 1970 level were assumed for each sex. This assumption implies that within each sex group the earnings level would not rise on account of changes in the distribution of covered workers by occupation or industry.

In the past, average earnings have increased substantially, partly because of inflation, and partly because of increased productivity, although other factors such as hours worked and unemployment have also had an effect. If this trend continues and if the benefit formula is not changed the cost relative to payroll would be less than the estimates show because the formula provides a benefit that is a decreasing percentage of average wage as the average wage increases.

It is likely, however, that if average earnings increase, the benefit formula and the earnings base used for contributions will be modified.

If benefit payments are increased in exactly the same ratio as the increase in taxable earnings, the year-by-year cost estimates of benefit payments expressed as a percentage of payroll would be unchanged. There would, however, be some increase in the level-premium cost because of the diminished relative value of interest earnings on the trust funds.

Insured population

The term "insured" is used meaning fully insured, since the number of persons who are currently insured only is relatively small and can be disregarded for long-range cost analysis purposes. The percentages of insured persons by age and sex in various future years are estimated from the percentages of persons covered. It is evident that eventually almost all males in the country will be insured for old-age and survivor benefits; the ultimate percentage for aged males is estimated at 96 percent in the low-cost estimate and 98 percent in the high-cost estimate. For females there is much greater uncertainty; it is estimated that the corresponding proportions for aged females will eventually be 70 percent in the low-cost estimate and 75 percent in the high-cost estimate (the differential reflecting the range possible because of women moving in and out of the labor market and whether thereby they do or do not obtain insured status).

The estimated numbers of persons insured for disability benefits are lower than those insured for old-age and survivor benefits because of the more restrictive insured status provisions for disability benefits.

Aged beneficiaries

Old-age beneficiaries are estimated from the aged insured population. The proportions, by age and sex, of the insured population that were receiving benefits at the beginning of 1970 were projected to increase slightly in the high-cost estimate, following the trends in the past—thus, reflecting the assumed gradual increase in the retirement rates. In the low-cost estimate, the rates were assumed to remain at about the 1970 level, which reflects the most recent tendency for a leveling-off in this factor.

Wives aged 62 and over of male old-age beneficiaries were estimated by using census data and mortality projections. These potential wife beneficiaries, after adjustment for eligibility to benefits on their own account, were assumed to claim benefits as soon as they are eligible, even if this occurred at ages 62-64, when they would have to take reduced benefits. The experience to date indicates that in the vast majority of the cases such immediate claiming of wife's benefits does occur.

To estimate widow beneficiaries the proportions of widows in the female aged population were projected according to mortality assumptions and adjusted for both eligibility for benefits on their own account and for the insured status of their deceased husbands. These uninsured eligible widows were assumed to claim benefits as soon as available even if this occurred at ages 60 and 61, when they would have to take reduced benefits. For ages 50-59 the disabled widow beneficiaries were estimated from the eligible widows by using disability prevalence rates.

It can be observed that the assumed wife and widow beneficiaries consist of the uninsured potential beneficiaries. In actual practice, some of the insured potential beneficiaries also receive a residual benefit consisting of the excess of the potential wife's or widow's benefit over their own old-age benefit. These residual benefits, although not giving rise to additional aged beneficiaries, were considered in the cost of the particular type of dependent or survivor benefit concerned.

The minor category of parent beneficiaries is estimated as a constant proportion of aged persons not eligible for any other benefit. The insignificant effect of the retirement test as it applies to wife's, widow's, and parent's benefits was ignored. No estimates were made for benefits to dependent husbands and widowers since their cost is relatively negligible.

Appendix table 1 shows the estimated numbers of aged beneficiaries.

APPENDIX TABLE 1.—MONTHLY RETIREMENT BENEFICIARIES IN CURRENT-PAYMENT STATUS: 1969-2000

[In thousands]

Calendar year	Old-age beneficiaries		Wives of old-age beneficiaries ²	Aged widows ³	Dependent parents	Total
	Male	Female

2000.....	12,576	13,021	2,926	3,419	23	31,965

¹ Persons qualifying both for old-age benefits and for wife's, widow's, husband's, widower's, and parent's benefits are shown only as old-age beneficiaries. Minimum retirement age was 65 until November 1956, when it was lowered to 62 for women, and until August 1961, when it was also reduced to 62 for men, except that for widows it was further lowered to 60 in September 1965. Actual data as of the end of the year; estimated data as of the middle of the year. Excluding effect of railroad financial interchange provisions.

² Including dependent husbands and including wives of any age with child beneficiaries in their care (both relative to small categories).

³ Including dependent widowers and disabled widows and widowers aged 50 and over.

Beneficiaries under retirement age

Young wives and children of retired workers were estimated by reference to their ratios to male old-age beneficiaries, as derived from recent actual data and projected according to the population fertility and mortality assumptions.

Child-survivor beneficiaries were obtained from estimates of total paternal orphans in the country in future years. The projected child population by age groups was multiplied by the probability of being a paternal orphan. These probabilities were derived by using distributions of age of fathers at birth of child and death rates consistent with the population projections. The number of paternal orphans was then adjusted to eliminate orphans of uninsured men, to add orphans of insured women and to include the eligible disabled orphans aged 18 and over. For the nondisabled children aged 18-21, a further reduction was made to exclude those not attending school. Mother survivor beneficiaries were estimated by assuming a constant ratio of mothers to children, after excluding those aged 18-21 who are attending school. The numbers of lump-sum death payments were estimated by multiplying the insured population by death rates used in the population projections.

Disabled beneficiaries and their dependents

The future number of persons receiving monthly disability benefits based on their own earnings is estimated by the application of incidence and termination rates. These rates were developed from the most recent experience data available from the operations of the disability insurance system. The population insured for disability (by sex, age, and cost assumption) is multiplied by the incidence rates to arrive at the number of new cases of disabled workers. These in turn are projected through the use of mortality and recovery rates to obtain the number of beneficiaries.

Appendix table 2 shows the estimates of number of beneficiaries under the minimum retirement age (including disability insurance beneficiaries and their dependents).

APPENDIX TABLE 2.—MONTHLY BENEFICIARIES UNDER MINIMUM RETIREMENT AGE IN CURRENT-PAYMENT STATUS¹ AND NUMBER OF DEATHS RESULTING IN LUMP-SUM DEATH PAYMENTS, 1960-2000

¹ See footnote 1 of app. table 1 for definition of minimum retirement age. Does not include wives under age 62 of old-age beneficiaries; including disability beneficiaries aged 62-64, and spouses aged 62 and over of disability beneficiaries. For actual data, as of December; for estimated future data, as of middle of year. Excluding effect of railroad financial interchange provisions.

² Children of retired and deceased workers.

³ Spouses of disabled workers, including some such spouses aged 62 and over.

⁴ Children of disabled workers.

Average benefits and total benefit payments

Average awarded benefits were interpolated between the sizes of current benefit awards, estimated from recent claims data, and the sizes of the ultimate benefit computed. The latter were determined as though the 1970 earnings level were in effect throughout the entire working life of all workers with respect to whom benefits will be paid. The average benefits being paid were then obtained by cohort projection of the estimated benefits at time of the award. Total benefit payments are shown in dollar amounts, in tables 24 and 25, and as a percentage of payroll, in table 23.

The combined cost of old-age, survivors, and disability benefits (expressed as a percentage of taxable payroll) in 1970 as shown in tables 19 and 22 is projected to increase by about 40 percent in the low-cost estimate and by about 90 percent in the high-cost estimate, according to table 23. The significant upward cost trend is temporarily reversed around the year 2000, at which time a significant part of the aged population consists of persons born in the 1930's, when birth rates were low.

Administrative expenses

Assumed administrative expenses for old-age, survivors, and disability insurance are based on two factors—the number of persons having any covered employment in the given year and the number of monthly beneficiaries.

Railroad retirement financial interchange

A financial interchange between the old-age, survivors, and disability insurance system and the railroad retirement system is provided, as explained in appendix II. The purpose of this interchange is to place the old-age and survivors insurance and the disability insurance trust funds in the same position they would have been in if railroad employment were, and always had been, covered employment.

Because of the relatively older age distribution of railroad workers, the transfer is currently in favor of the railroad retirement system. But it is estimated that eventually the higher average wage of railroad employees and the increasing proportion of wives and widows of railroad workers receiving old-age, survivors, and

disability insurance benefits on their own earnings records, rather than on the record of the railroad worker, will shift the transfer the other way. The long-range effect is relatively small insofar as old-age, survivors, and disability insurance costs are concerned, but the current estimates indicate a "net gain" to the railroad retirement system over the entire period of these estimates.

Interest rate

The 1960 amendments revised the basis for determining the interest rate on public-debt obligations issued for purchase by the trust funds (special issues), which constitute a major portion of the investments of the trust funds. Under previous law, the interest rate on special obligations was related to the average coupon rate on all outstanding marketable obligations of the United States not due or callable for at least 5 years from the original issue date. Under present law, this interest rate is based on the average market yield of all such marketable obligations not due or callable for 4 or more years from the time of the issuance of the special obligations.

This change will have the immediate effect of gradually increasing the interest income of the trust funds as compared with the previous basis. The ultimate effect is expected to be only a slight increase in the interest income of the system since, over the long run, coupon rates on new long-term Government obligations tend to follow (both up and down) the average yield on all outstanding long-term issues.

For the intermediate-cost estimate, a level interest rate of 5.25 percent was assumed. This is close to the average yield of the total investments of the old-age survivors and disability insurance trust funds, combined, as of December 31, 1970 (5.22 percent). The rate applicable for new investments for both trust funds for March 1971 was 5½ percent. The interest rates for the low-cost and high-cost estimates were assumed at 5.75 percent and 4.75 percent, respectively.

APPENDIX II. LEGISLATIVE HISTORY AFFECTING THE TRUST FUNDS ¹

Board of Trustees.—From January 1, 1940, when the Federal old-age and survivors insurance trust fund was established, through July 15, 1946, the three members of the Board of Trustees, who served in an ex officio capacity, were the Secretary of the Treasury, the Secretary of Labor, and the Chairman of the Social Security Board. On July 16, 1946, under Reorganization Plan No. 2 of 1946, the Federal Security Administrator became ex officio member of the Board of Trustees in place of the Chairman of the Social Security Board, which agency was abolished.

On April 11, 1953, Reorganization Plan No. 1 of 1953, creating the Department of Health, Education, and Welfare, went into effect, and the office of Federal Security Administrator was abolished. The functions of the Administrator as ex officio member of the Board of Trustees were taken over by the Secretary of Health, Education, and Welfare. The remaining membership of the Board has not changed since it was first established. Since the establishment of the funds the Secretary of the Treasury has been managing trustee. The Social Security Act Amendments of 1950 designated the Commissioner for Social Security—since April 11, 1953, the Commissioner of Social Security—as Secretary of the Board of Trustees.

Under the Social Security Amendments of 1956, the functions of the Board of Trustees have related to both the Federal old-age and survivors insurance trust fund and the Federal disability insurance trust fund. The Social Security Amendments of 1960 eliminated the so-called three-times rule (requiring the Board of Trustees to report to the Congress whenever it expects that in the course of the next 5 fiscal years either of the trust funds will exceed three times the highest annual expenditures from such fund anticipated during that 5-year period). The Social Security Amendments of 1965 provide that the Board of Trustees shall meet not less frequently than once each calendar year.

¹ Amendments to the Social Security Act and to related sections of the Internal Revenue Code were made during the period 1939-71. The more important changes made in 1950-53 that are significant from an actuarial standpoint are described in appendix II of the 21st Annual Report of the Board of Trustees. The more important changes contained in the 1960 and 1961 amendments are described in the main body of the 23d annual report, the changes made in 1964 are described in the 25th annual report, and the more important changes contained in the amendments made in 1965 and in 1966 are described in the 1967 annual report. The more important changes contained in the 1967 amendments are described in the 1969 annual report. The more important changes contained in the amendments made in 1969 and in 1971 are described in the main body of the present report.

Contribution rates.—The Social Security Act of 1935 fixed the contribution rates for employees and their employers at 1 percent each on taxable wages for the calendar years 1937–39, and provided for higher rates thereafter. However, subsequent acts of Congress extended the 1-percent rates through calendar year 1949. On January 1, 1950, the rates rose to 1½ percent each for employees and employers, as provided by the Social Security Act Amendments of 1947. In accordance with the Social Security Act Amendments of 1950, the 1½-percent rates remained in effect through calendar year 1953, and, on January 1, 1954, rose to 2 percent each for employees and employers. These rates remained in effect through December 31, 1956.

In accordance with the Social Security Amendments of 1956, which provided for the creation of the Federal disability insurance trust fund, the 2-percent rates were increased to 2¼ percent each on January 1, 1957, in order to finance the new disability benefits under the expanded old-age, survivors, and disability insurance (OASDI) program. These rates remained in effect through calendar year 1958. On January 1, 1959, the rates rose to 2½ percent each, and on January 1, 1960, to 3 percent each, as provided by the Social Security Amendments of 1958. These rates remained in effect through December 31, 1961.

In accordance with the Social Security Amendments of 1961, the 3-percent rates rose, on January 1, 1962, to 3⅞ percent each for employees and employers, and on January 1, 1963, to 3¾ percent each. These rates remained in effect through December 31, 1965. In accordance with the Social Security Amendments of 1965, the rates rose to 3.85 percent each for employees and employers on January 1, 1966, and to 3.9 percent each on January 1, 1967. As provided by the Social Security Amendments of 1967, the rates decreased to 3.8 percent each on January 1, 1968 (this drop was exactly counterbalanced by an increase in the contribution rate for hospital insurance), and then increased to 4.2 percent each on January 1, 1969.

Beginning on January 1, 1966, coverage was extended to include cash tips, with only the employee's share of the contributions payable (the employer is exempted from payment of contributions on cash tips).

Beginning January 1, 1951—the effective date of extension of coverage to self-employed persons—the contribution rates on self-employment income have been approximately equal to 1½ times the corresponding employee rates.

The Social Security Amendments of 1956 provided that beginning January 1, 1957, from the total contribution income based on the foregoing rates, contributions at the rate of 0.25 percent each for employees and employers, and 0.375 percent for the self-employed, should be allocated to the disability insurance trust fund. In accordance with the Social Security Amendments of 1965, this allocation for the disability insurance (DI) program increased to 0.35 percent each for employees and employers on January 1, 1966; for the self-employed, the allocation rate increased to 0.525 percent. As provided by the Social Security Amendments of 1967, the rates allocated for the DI program increased to 0.475 percent each for employees and employers and 0.7125 percent for the self-employed, on January 1, 1968.

The contribution rates that have been in effect since 1937, as well as the rates that have been allocated (after 1956) for payment of benefits from the disability insurance trust fund and the maximum amount of annual earnings to which the rates applied, are shown in appendix table 3.

APPENDIX TABLE 3.—CONTRIBUTION RATES AND MAXIMUM TAXABLE AMOUNT OF ANNUAL EARNINGS,
CALENDAR YEARS 1937-70

Calendar years	Contribution rates (percent of taxable earnings)				
	Maximum taxable amount of annual earnings	OASDI		DI ¹	
		Employees and employers, each	Self-employed	Employees and employers, each	Self-employed
1937-49	\$3,000	1.000			
1950	3,000	1.500			
1951-53	3,600	1.500	2.250

1967	6,600	3.900	5.900	.350	.5250
1968	7,800	3.800	5.800	.475	.7125
1969	7,800	4.200	6.300	.475	.7125
1970	7,800	4.200	6.300	.550	.8250

¹ Included in total OASDI rate.

Special refunds of employee contributions.—With respect to wages paid before 1951, refunds to employees who worked for more than one employer during the course of a year and paid contributions on such wages in excess of the statutory maximum were made from the general fund of the Treasury. With respect to wages paid after 1950, these refunds are paid from the Treasury account for refunding internal revenue collections. The Social Security Act Amendments of 1950 directed the managing trustee to pay from time to time from the old-age and survivors insurance trust fund into the Treasury, as repayments to the account for refunding internal revenue collections, the amount of contributions which are subject to refund with respect to wages paid after 1950. The Social Security Act Amendments of 1956 provided for similar repayments from the disability insurance trust fund.

Credits for military service.—The Social Security Act Amendments of 1946 provided survivor-insurance protection to certain World War II veterans for a period of 3 years following their discharge from the Armed Forces. Federal appropriations were authorized to reimburse the old-age and survivors insurance trust fund for such sums as were withdrawn to meet the additional cost (including administrative expenses) of such payments.

The 1950 amendments, which provided noncontributory \$160 monthly wage credits to persons who served in the Armed Forces during World War II, and the 1952, 1953, 1955, and 1956 amendments, which provided similar noncontributory credits on account of active military or naval service from July 25, 1947 through December 31, 1956, charged to the old-age and survivors insurance trust fund not only the additional costs arising from these credits but also, beginning September 1950, those additional costs arising under the 1946 amendments.

The 1956 amendments provided contributory coverage for military personnel beginning January 1, 1957. In addition, these amendments authorized that the old-age and survivors insurance trust fund and, where appropriate, the disability insurance trust fund be reimbursed from the general fund of the Treasury for expenditures after August 1950 resulting from the provisions that granted non-contributory \$160 monthly wage credits to persons who served in the Armed Forces from September 16, 1940 through December 31, 1956, and from the provisions enacted in 1946.

The 1965 amendments provided a new basis of reimbursement to the trust funds from the general fund of the Treasury for the foregoing expenditures. Under the new basis, annual appropriations to the trust funds from the general fund of the Treasury are authorized, beginning with fiscal year 1966, that will amortize, over a 50-year period, both the accumulated backlog of expenditures resulting from such military service and the additional amounts that will accrue through fiscal year 2015. After 2015, annual appropriations are authorized to meet the currently accruing additional costs of subsequent benefit payments.

The 1967 amendments provided that, after December 31, 1967, the covered earnings of a person on active duty in the uniformed services (including active duty for training) are deemed to be \$300 more than his basic pay in a calendar quarter, except that the deemed additional covered earnings are \$100 when his basic pay in a calendar quarter is \$100 or less, and \$200 when his basic pay in a quarter is over \$100 but is not over \$200. Annual appropriations from the general fund of the Treasury are authorized to reimburse the trust funds for the additional costs of paying the benefits resulting from these deemed additional earnings.

The existing statutory provisions that authorize the granting of noncontributory credits for military service and the financing of these credits are set forth in appendix III.

Payments to certain noninsured persons aged 72 and over.—Public Law 89-368, the Tax Adjustment Act of 1966, approved March 15, 1966, amended the Social Security Act to provide monthly payments, effective with benefits for October 1966, to certain noninsured persons aged 72 and over. Under the legislation, all payments are made initially from the old-age and survivors insurance trust fund. Provision is made for reimbursement from the general fund of the Treasury to the trust fund in each fiscal year, beginning in fiscal year 1969, on account of payments during the second preceding fiscal year to persons with less than three quarters of coverage. The reimbursement also includes the additional administrative expenses resulting from such payments and the loss of interest resulting from such payments and expenses. The statutory provisions authorizing payments to noninsured persons aged 72 and over and the financing of these payments are set forth in appendix III.

Coordination of old-age, survivors, and disability insurance and railroad retirement programs.—Public Law 234, approved October 30, 1951, amended the Railroad Retirement Act to provide a basis for coordinating the railroad retirement program with old-age and survivors insurance. This legislation provides that the railroad wage credits of workers who die or retire with less than 10 years of railroad employment shall be transferred to the old-age and survivors insurance system. These amendments did not affect workers who acquire 10 years or more of railroad service. That is, the survivors of over-10-year railroad workers will, as under the 1946 amendments to the Railroad Retirement Act, receive benefits under one program or the other based on combined wage records, while retirement benefits will be payable under both systems to individuals with 10 or more years of railroad service who also qualify under old-age and survivors insurance.

With respect to the allocation of costs between the two systems, Public Law 234 required the Railroad Retirement Board and the Secretary of Health, Education, and Welfare to "determine, no later than January 1, 1954, the amount which would place the Federal old-age and survivors insurance trust fund in the same position in which it would have been at the close of the fiscal year ending June 30, 1952, if service as an employee after December 31, 1936, had been included in the term 'employment' as defined in the Social Security Act and in the Federal Insurance Contributions Act." The two agencies completed a series of joint actuarial studies and analyses required by this provision. The results show that the addition of \$488 million to the old-age and survivors insurance trust fund would place it in the same position as of June 30, 1952, as it would have been if railroad employment had always been covered under the Social Security Act.

There is no authority in the law that would have permitted the transfer of the \$488 million from the railroad retirement account to the trust fund, but the legislation provides that beginning with fiscal year 1953, and for each fiscal year thereafter, annual interest payments on this amount were to be transferred from the railroad retirement account to the trust fund.

The legislation further provides that at the close of the fiscal year 1953, and each fiscal year thereafter, annual reimbursements are to be effected between the railroad retirement account and the trust fund in such amounts as would, taking into consideration the amount determined for the period through June 30, 1952,

place the trust fund at the end of the year in the same position in which it would have been if railroad employment were covered under the Social Security Act. If the reimbursement is from the trust fund to the railroad retirement account, the Secretary of Health, Education, and Welfare may offset the amount of such reimbursement against the amount determined for the period through June 30, 1952.

The Social Security Amendments of 1956 amended Public Law 234 to provide for similar annual determinations and financial interchanges between the railroad retirement account and the newly created disability insurance trust fund, beginning with the fiscal year ending June 30, 1958.

Payments for cost of vocational rehabilitation services.—The Social Security Amendments of 1965 provided for payments from the old-age and survivors insurance and disability insurance trust funds for the cost of vocational rehabilitation services furnished to disability insurance beneficiaries and to disabled adults receiving benefits on the basis of disabilities that have continued since childhood. The Social Security Amendments of 1967 broadened the categories of disabled beneficiaries by providing payments from the old-age and survivors insurance trust fund for the cost of vocational rehabilitation services furnished to disabled widows, prior to attaining age 60, and to disabled widowers prior to attaining age 62. The total amount of funds that may be made available for purposes of reimbursement for such services may not, in any fiscal year, exceed 1 percent of the benefits certified for payment to these types of beneficiaries in the preceding year. The statutory provisions authorizing payments from the trust funds for the cost of vocational rehabilitation services are set forth in appendix III.

Investments.—Since the inception of the program, provision has been made for the investment of funds which are not required to meet current disbursements. As provided in the Social Security Act, the funds may be invested only in interest-bearing obligations of the U.S. Government or in obligations guaranteed as to both principal and interest by the United States; or the funds may be invested in certain federally-sponsored agency obligations that are designated in the laws authorizing their issuance as lawful investments for fiduciary and trust funds under the control and authority of the United States or any officer of the United States. These obligations may be acquired on original issue at the issue price or by purchase of outstanding obligations at their market price. In addition, the Social Security Act authorizes the issuance of public-debt obligations for purchase by the trust funds. (These public-debt obligations, issued for purchase by the trust fund have been referred to in the law in the past as special obligations; more popularly they are referred to as "special issues".)

The Social Security Act of 1935 specified that special issues should bear interest at the rate of 3 percent per annum, and that other obligations could be acquired only on such terms as to provide an investment yield of at least 3 percent per annum. The Social Security Act Amendments of 1939 provided that the special issues should bear interest at a rate equal to the average rate of interest, computed as of the end of the calendar month next preceding the date of their issue, borne by all interest-bearing obligations of the United States forming a part of the public debt, such average rate being rounded down to the next lower one-eighth of 1 percent. The 1939 amendments also eliminated the requirement that obligations other than special obligations could be acquired only on such terms as to provide an investment yield of at least 3 percent per annum.

In recognition of the long-term character of the commitments of the trust funds, the Social Security Amendments of 1956 provided that the special issues should have maturities fixed with due regard for the needs of the funds, and that they should bear interest at a rate equal to the average rate of interest borne by all marketable interest-bearing obligations of the United States forming a part of the public debt which are not due or callable for 5 or more years from the date of original issue, such average rate being rounded to the nearest one-eighth of 1 percent. For several years preceding the enactment of the 1956 amendments, the special issues had a maximum duration from issue to maturity of 1 year. As a result of the provisions of the 1956 amendments described above, the maximum duration to maturity of the special issues was lengthened to 15 years.

The Social Security Amendments of 1960 provided that special issues acquired after enactment should bear interest at a rate equal to the average market yield (computed on the basis of market quotations as of the end of the calendar month next preceding their issue) on all marketable interest-bearing obligations of the

United States forming a part of the public debt which are not due or callable for 4 or more years from the time the special obligations are issued, such average market yield being rounded to the nearest one-eighth of 1 percent.

APPENDIX III. SELECTED STATUTORY PROVISIONS RELATING TO THE TRUST FUNDS, AS OF MARCH 17, 1971

(Sec. 201, sec. 217, sec. 218(e) (1), (h), and (j), sec. 222(d), sec. 228, sec. 229, and sec. 706 of the Social Security Act as amended)

FEDERAL OLD-AGE AND SURVIVORS INSURANCE TRUST FUND AND FEDERAL DISABILITY INSURANCE TRUST FUND

SEC. 201. (a) There is hereby created on the books of the Treasury of the United States a trust fund to be known as the "Federal Old-Age and Survivors Insurance Trust Fund". The Federal Old-Age and Survivors Insurance Trust Fund shall consist of the securities held by the Secretary of the Treasury for the Old-Age Reserve Account and the amount standing to the credit of the Old-Age Reserve Account on the books of the Treasury on January 1, 1940, which securities and amount the Secretary of the Treasury is authorized and directed to transfer to the Federal Old-Age and Survivors Insurance Trust Fund, and, in addition, such amounts as may be appropriated to, or deposited in, the Federal Old-Age and Survivors Insurance Trust Fund as hereinafter provided. There is hereby appropriated to the Federal Old-Age and Survivors Insurance Trust Fund for the fiscal year ending June 30, 1941, and for each fiscal year thereafter, out of any moneys in the Treasury not otherwise appropriated, amounts equivalent to 100 per centum of—

(1) the taxes (including interest, penalties, and additions to the taxes) received under subchapter A of chapter 9 of the Internal Revenue Code of 1939 (and covered into the Treasury) which are deposited into the Treasury by collectors of internal revenue before January 1, 1951; and

(2) the taxes certified each month by the Commissioner of Internal Revenue as taxes received under subchapter A of chapter 9 of such Code which are deposited into the Treasury by collectors of internal revenue after December 31, 1950, and before January 1, 1953, with respect to assessments of such taxes made before January 1, 1951; and

(3) the taxes imposed by subchapter A of chapter 9 of such Code with respect to wages (as defined in section 1426 of such Code), and by chapter 21 (other than sections 3101(b) and 3111(b)) of the Internal Revenue Code of 1954 with respect to wages (as defined in section 3121 of such Code) reported to the Commissioner of Internal Revenue pursuant to section 1420(c) of the Internal Revenue Code of 1939 after December 31, 1950, or to the Secretary of the Treasury or his delegates pursuant to subtitle F of the Internal Revenue Code of 1954 after December 31, 1954, as determined by the Secretary of the Treasury by applying the applicable rates of tax under such subchapter or chapter 21 (other than sections 3101(b) and 3111(b)) to such wages, which wages shall be certified by the Secretary of Health, Education, and Welfare on the basis of the records of wages established and maintained by such Secretary in accordance with such reports, less the amounts specified in clause (1) of subsection (b) of this section; and

(4) the taxes imposed by subchapter E of chapter 1 of the Internal Revenue Code of 1939, with respect to self-employment income (as defined in section 481 of such Code), and by chapter 2 (other than section 1401(b)) of the Internal Revenue Code of 1954 with respect to self-employment income (as defined in section 1402 of such Code) reported to the Commissioner of Internal Revenue on tax returns under such subchapter or to the Secretary of the Treasury, or his delegate on tax returns under subtitle F of such Code, as determined by the Secretary of the Treasury by applying the applicable rate of tax under such subchapter or chapter (other than section 1401(b)) to such self-employment income, which self-employment income shall be certified by the Secretary of Health, Education, and Welfare on the basis of the records of self-employment income established and maintained by the Secretary of Health, Education, and Welfare in accordance with such returns, less the amounts specified in clause (2) of subsection (b) of this section.

The amounts appropriated by clauses (3) and (4) shall be transferred from time to time from the general fund in the Treasury to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from time to time from the general fund in the Treasury to the Federal Disability Insurance Trust Fund, such amounts to be determined on the basis of estimates by the Secretary of the Treasury of the taxes, specified in clauses (3) and (4) of this subsection, paid to or deposited into the Treasury; and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or were less than the taxes specified in such clauses (3) and (4) of this subsection.

(b) There is hereby created on the books of the Treasury of the United States a trust fund to be known as the "Federal Disability Insurance Trust Fund". The Federal Disability Insurance Trust Fund shall consist of such amounts as may be appropriated to, or deposited in, such fund as provided in this section. There is hereby appropriated to the Federal Disability Insurance Trust Fund for the fiscal year ending June 30, 1957, and for each fiscal year thereafter, out of any moneys in the Treasury not otherwise appropriated, amounts equivalent to 100 per centum of—

(1) (A) $\frac{1}{2}$ of 1 per centum of the wages (as defined in section 3121 of the Internal Revenue Code of 1954) paid after December 31, 1956, and before January 1, 1966, and reported to the Secretary of the Treasury or his delegate pursuant to subtitle F of the Internal Revenue Code of 1954, (B) 0.70 of 1 per centum of the wages (as so defined) paid after December 31, 1965, and before January 1, 1968, and so reported, (C) 0.95 of 1 per centum of the wages (as so defined) paid after December 31, 1967, and before January 1, 1970, and so reported, and (D) 1.10 per centum of the wages (as so defined) paid after December 31, 1969, and so reported, which wages shall be certified by the Secretary of Health, Education, and Welfare on the basis of the records of wages established and maintained by such Secretary in accordance with such reports; and

(2) (A) $\frac{3}{8}$ of 1 per centum of the amount of self-employment income (as defined in section 1402 of the Internal Revenue Code of 1954) reported to the Secretary of the Treasury or his delegate on tax returns under subtitle F of the Internal Revenue Code of 1954 for any taxable year beginning after December 31, 1956, and before January 1, 1966, (B) and 0.525 of 1 per centum of the amount of self-employment income (as so defined) so reported for any taxable year beginning after December 31, 1965, and before January 1, 1968, (C) 0.7125 of 1 per centum of the amount of self-employment income (as so defined) so reported for any taxable year beginning after December 31, 1967, and before January 1, 1970, and (D) 0.825 of 1 per centum of the amount of self-employment income (as so defined) so reported for any taxable year beginning after December 31, 1969, which self-employment income shall be certified by the Secretary of Health, Education, and Welfare on the basis of the records of self-employment income established and maintained by the Secretary of Health, Education, and Welfare in accordance with such returns.

(c) With respect to the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund (hereinafter in this title called the "Trust Funds") there is hereby created a body to be known as the Board of Trustees of the Trust Funds (hereinafter in this title called the "Board of Trustees") which Board of Trustees shall be composed of the Secretary of the Treasury, the Secretary of Labor, and the Secretary of Health, Education, and Welfare, all ex officio. The Secretary of the Treasury shall be the Managing Trustee of the Board of Trustees (hereinafter in this title called the "Managing Trustee"). The Commissioner of Social Security shall serve as Secretary of the Board of Trustees. The Board of Trustees shall meet not less frequently than once each calendar year. It shall be the duty of the Board of Trustees to—

(1) hold the Trust Funds;

(2) report to the Congress not later than the first day of April of each year on the operation and status of the Trust Funds during the preceding fiscal year and on their expected operation and status during the next ensuing five fiscal years;

(3) report immediately to the Congress whenever the Board of Trustees is of the opinion that the amount of either of the Trust Funds is unduly small;

(4) recommend improvements in administrative procedures and policies designed to effectuate the proper coordination of the old-age and survivors insurance and Federal-State unemployment compensation program; and

(5) review the general policies followed in managing the Trust Funds, and recommend changes in such policies, including necessary changes in the provisions of the law which govern the way in which the Trust Funds are to be managed.

The report provided for in paragraph (2) above shall include a statement of the assets of, and the disbursements made from, the Trust Funds during the preceding fiscal year, an estimate of the expected future income to, and disbursements to be made from, the Trust Funds during each of the next ensuing five fiscal years, and a statement of the actuarial status of the Trust Funds. Such report shall also include an actuarial analysis of the benefit disbursements made from the Federal Old-Age and Survivors Insurance Trust Fund with respect to disabled beneficiaries. Such report shall be printed as a House document of the session of the Congress to which the report is made.

(d) It shall be the duty of the Managing Trustee to invest such portion of the Trust Funds as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose such obligations may be acquired (1) on original issue at the issue price, or (2) by purchase of outstanding obligations at the market price. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act, as amended, are hereby extended to authorize the issuance at par of public-debt obligations for purchase by the Trust Funds. Such obligations issued for purchase by the Trust Funds shall have maturities fixed with due regard for the needs of the Trust Funds and shall bear interest at a rate equal to the average market yield (computed by the Managing Trustee on the basis of market quotations as of the end of the calendar month next preceding the date of such issue) on all marketable interest-bearing obligations of the United States then forming a part of the public debt which are not due or callable until after the expiration of four years from the end of such calendar month; except that where such average market yield is not a multiple of one-eighth of 1 per centum, the rate of interest of such obligations shall be the multiple of one-eighth of 1 per centum nearest such market yield. The Managing Trustee may purchase other interest-bearing obligations of the United States or obligations guaranteed as to both principal and interest by the United States, on original issue or at the market price, only where he determines that the purchase of such other obligations is in the public interest.

(e) Any obligations acquired by the Trust Funds (except public-debt obligations issued exclusively to the Trust Funds) may be sold by the Managing Trustee at the market price, and such public-debt obligations may be redeemed at par plus accrued interest.

(f) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund shall be credited to and form a part of the Federal Old-Age and Survivors Insurance Trust Fund and the Disability Insurance Trust Fund, respectively.

(g)(1)(A) There are authorized to be made available for expenditure, out of any or all of the Trust Funds (which for purposes of this paragraph shall include also the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund established by title XVIII), such amounts as the Congress may deem appropriate to pay the costs of the part of the administration of this title and title XVIII for which the Secretary of Health, Education, and Welfare is responsible. During each fiscal year or after the close of such fiscal year (or at both times), the Secretary of Health, Education, and Welfare shall analyze the costs of administration of this title and title XVIII during the appropriate part or all of such fiscal year in order to determine the portion of such costs which should be borne by each of the Trust Funds and shall certify to the Managing Trustee the amount, if any, which should be transferred among such Trust Funds in order to assure that each of the Trust Funds bears its proper share of the costs incurred during such fiscal year for the part of the administration of this title and title XVIII for which the Secretary of Health, Education, and Welfare is responsible. The Managing Trustee is authorized and directed to transfer any such amount (determined under the preceding sentence) among such Trust Funds in accordance with any certification so made.

(B) The Managing Trustee is directed to pay from the Trust Funds into the Treasury the amounts estimated by him which will be expended, out of moneys appropriated from the general funds in the Treasury, during each calendar quarter by the Treasury Department for the part of the administration of this title and title XVIII for which the Treasury Department is responsible and for the administration of chapters 2 and 21 of the Internal Revenue Code of 1954. Such payments shall be covered into the Treasury as repayment to the account for reimbursement of expenses incurred in connection with such administration of this title and title XVIII and chapters 2 and 21 of the Internal Revenue Code of 1954.

(2) The Managing Trustee is directed to pay from time to time from the Trust Funds into the Treasury the amount estimated by him as taxes imposed under section 3101(a) which are subject to refund under section 6413(c) of the Internal Revenue Code of 1954 with respect to wages (as defined in section 1426 of the Internal Revenue Code of 1939 and section 3121 of the Internal Revenue Code of 1954) paid after December 31, 1950. Such taxes shall be determined on the basis of the records of wages established and maintained by the Secretary of Health, Education, and Welfare in accordance with the wages reported to the Commissioner of Internal Revenue pursuant to section 1420(c) of the Internal Revenue Code of 1939 and to the Secretary of the Treasury or his delegate pursuant to subtitle F of the Internal Revenue Code of 1954, and the Secretary shall furnish the Managing Trustee such information as may be required by the Trustee for such purpose. The payments by the Managing Trustee shall be covered into the Treasury as repayments to the account for refunding internal revenue collections. Payments pursuant to the first sentence of this paragraph shall be made from the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund in the ratio in which amounts were appropriated to such Trust Funds under clause (3) of subsection (a) of this section and clause (1) of subsection (b) of this section.

(3) Repayments made under paragraph (1) or (2) shall not be available for expenditures but shall be carried to the surplus fund of the Treasury. If it subsequently appears that the estimates under either such paragraph in any particular period were too high or too low, appropriate adjustments shall be made by the Managing Trustee in future payments.

(h) Benefit payments required to be made under section 223, and benefit payments required to be made under subsection (b), (c), or (d) of section 202 to individuals entitled to benefits on the basis of the wages and self-employment income of an individual entitled to disability insurance benefits, shall be made only from the Federal Disability Insurance Trust Fund. All other benefit payments required to be made under this title (other than section 226) shall be made only from the Federal Old-Age and Survivors Insurance Trust Fund.

BENEFITS IN CASE OF VETERANS

SEC. 217. (a) (1) For purposes of determining entitlement to and the amount of any monthly benefit for any month after August 1950, or entitlement to and the amount of any lump-sum death payment in case of a death after such month, payable under this title on the basis of the wages and self-employment income of any World War II veteran, and for purposes of section 216(i)(3), such veteran shall be deemed to have been paid wages (in addition to the wages, if any, actually paid to him) of \$160 in each month during any part of which he served in the active military or naval service of the United States during World War II. This subsection shall not be applicable in the case of any monthly benefit or lump-sum death payment if—

(A) a larger such benefit or payment, as the case may be, would be payable without its application; or

(B) a benefit (other than a benefit payable in a lump sum unless it is a commutation of, or a substitute for, periodic payments) which is based, in whole or in part, upon the active military or naval service of such veteran during World War II is determined by any agency or wholly owned instrumentality of the United States (other than the Veterans' Administration) to be payable by it under any other law of the United States or under a system established by such agency or instrumentality. The provisions of clause (B) shall not apply in the case of any monthly benefit or lump-sum death payment under this title if its application would reduce by \$0.50 or less the primary insurance amount (as computed under section 215 prior to

any recomputation thereof pursuant to subsection (f) of such section) of the individual on whose wages and self-employment income such benefit or payment is based. The provisions of clause (B) shall also not apply for purposes of section 216(i)(3).

(2) Upon application for benefits or a lump-sum death payment on the basis of the wages and self-employment income of any World War II veteran, the Secretary of Health, Education, and Welfare shall make a decision without regard to clause (B) of paragraph (1) of this subsection unless he has been notified by some other agency or instrumentality of the United States that, on the basis of the military or naval service of such veteran during World War II, a benefit described in clause (B) of paragraph (1) has been determined by such agency or instrumentality to be payable by it. If he has not been so notified, the Secretary of Health, Education, and Welfare shall then ascertain whether some other agency or wholly owned instrumentality of the United States has decided that a benefit described in clause (B) of paragraph (1) is payable by it. If any such agency or instrumentality has decided, or thereafter decides, that such a benefit is payable by it, it shall so notify the Secretary of Health, Education, and Welfare, and the Secretary shall certify no further benefits for payment or shall recompute the amount of any further benefits payable, as may be required by paragraph (1) of this subsection.

(3) Any agency or wholly owned instrumentality of the United States which is authorized by any law of the United States to pay benefits, or has a system of benefits which are based, in whole or in part, on military or naval service during World War II shall, at the request of the Secretary of Health, Education, and Welfare, certify to him, with respect to any veteran, such information as the Secretary deems necessary to carry out his functions under paragraph (2) of this subsection.

(b) (1) Any World War II veteran who died during the period of three years immediately following his separation from the active military or naval service of the United States shall be deemed to have died a fully insured individual whose primary insurance amount is the amount determined under section 215(c). Notwithstanding section 215(d), the primary insurance benefit (for purposes of section 215(e)) of such veteran shall be determined as provided in this title as in effect prior to the enactment of this section, except that the 1 per centum addition provided for in section 209(e)(2) of this Act as in effect prior to the enactment of this section shall be applicable only with respect to calendar years prior to 1951. This subsection shall not be applicable in the case of any monthly benefit or lump-sum death payment if—

(A) a larger such benefit or payment, as the case may be, would be payable without its application;

(B) any pension or compensation is determined by the Veterans' Administration to be payable by it on the basis of the death of such veteran;

(C) the death of the veteran occurred while he was in the active military or naval service of the United States; or

(D) such veteran has been discharged or released from the active military or naval service of the United States subsequent to July 26, 1951.

(2) Upon an application for benefits or a lump-sum death payment on the basis of the wages and self-employment income of any World War II veteran, the Secretary of Health, Education, and Welfare shall make a decision without regard to paragraph (1)(B) of this subsection unless he has been notified by the Veterans' Administration that pension or compensation is determined to be payable by the Veterans' Administration by reason of the death of such veteran. The Secretary of Health, Education, and Welfare shall thereupon report such decision to the Veterans' Administration. If the Veterans' Administration in any such case has made an adjudication or thereafter makes an adjudication that any pension or compensation is payable under any law administered by it, it shall notify the Secretary of Health, Education, and Welfare, and the Secretary shall certify no further benefits for payment, or shall recompute the amount of any further benefits payable, as may be required by paragraph (1) of this subsection to any individual, not exceeding the amount of any accrued pension or compensation payable to him by the Veterans' Administration, shall (notwithstanding the provisions of section 3101 of title 38, United States Code) be deemed to have been paid to him by such Administration on account of such accrued pension or compensation. No such payment certified by the Secretary of Health, Education, and Welfare, and no payment certified by him for any month prior to the first month for which any pension or compensation is paid by the Veterans'

Administration shall be deemed by reason of this subsection to have been an erroneous payment.

(c) In the case of any World War II veteran to whom subsection (a) is applicable, proof of support required under section 202(h) may be filed by a parent at any period prior to July 1951 or prior to the expiration of two years after the date of the death of such veteran, whichever is the later.

(d) For the purposes of this section—

(1) the term "World War II" means the period beginning with September 16, 1940, and ending at the close of July 24, 1947.

(2) the term "World War II veteran" means any individual who served in the active military or naval service of the United States at any time during World War II and who, if discharged or released therefrom, was so discharged or released under conditions other than dishonorable after active service of ninety days or more or by reason of a disability or injury incurred or aggravated in service in line of duty; but such term shall not include any individual who died while in the active military or naval service of the United States if his death was inflicted (other than by an enemy of the United States) as lawful punishment for a military or naval offense.

(e) (1) For purposes of determining entitlement to and the amount of any monthly benefit or lump-sum death payment payable under this title on the basis of the wages and self-employment income of any veteran (as defined in paragraph (4)), and for purposes of section 216(i)(3), such veteran shall be deemed to have been paid wages (in addition to the wages, if any, actually paid to him) of \$160 in each month during any part of which he served in the active military or naval service of the United States on or after July 25, 1947, and prior to January 1, 1957. This subsection shall not be applicable in the case of any monthly benefit or lump-sum death payment if—

(A) a larger such benefit or payment, as the case may be, would be payable without its application; or

(B) a benefit (other than a benefit payable in a lump sum unless it is a commutation of, or a substitute for, periodic payments) which is based, in whole or in part, upon the active military or naval service of such veteran on or after July 25, 1947, and prior to January 1, 1957, is determined by any agency or wholly owned instrumentality of the United States (other than the Veterans' Administration) to be payable by it under any other law of the United States or under a system established by such agency or instrumentality.

The provisions of clause (B) shall not apply in the case of any monthly benefit or lump-sum death payment under this title if its application would reduce by \$0.50 or less the primary insurance amount (as computed under section 215 prior to any recomputation thereof pursuant to subsection (f) of such section) of the individual on whose wages and self-employment income such benefit or payment is based. The provisions of clause (B) shall also not apply for purposes of section 216(i)(3). In the case of monthly benefits under this title for months after December 1956 (and any lump-sum death payment under this title with respect to a death occurring after December 1956) based on the wages and self-employment income of a veteran who performed service (as a member of a uniformed service) to which the provisions of section 210(l)(1) are applicable, wages which would, but for the provisions of clause (B), be deemed under this subsection to have been paid to such veteran with respect to his active military or naval service performed after December 1950 shall be deemed to have been paid to him with respect to such service notwithstanding the provisions of such clause, but only if the benefits referred to in such clause which are based (in whole or in part) on such service are payable solely by the Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey or Public Health Service.

(2) Upon application for benefits or a lump-sum death payment on the basis of the wages and self-employment income of any veteran, the Secretary of Health, Education, and Welfare shall make a decision without regard to clause (B) of paragraph (1) of this subsection unless he has been notified by some other agency or instrumentality of the United States that, on the basis of the military or naval service of such veteran on or after July 25, 1947, and prior to January 1, 1957, a benefit described in clause (B) of paragraph (1) has been determined by such agency or instrumentality to be payable by it. If he has not been so notified, the Secretary of Health, Education, and Welfare shall then ascertain whether some other agency or wholly owned instrumentality of the United States has decided

that a benefit described in clause (B) of paragraph (1) is payable by it. If any such agency or instrumentality has decided, or thereafter decides, that such a benefit is payable by it, it shall so notify the Secretary of Health, Education, and Welfare, and the Secretary shall certify no further benefits for payment or shall recompute the amount of any further benefits payable, as may be required by paragraph (1) of this subsection.

(3) Any agency or wholly owned instrumentality of the United States which is authorized by any law of the United States to pay benefits, or has a system of benefits which are based, in whole or in part, on military or naval service on or after July 25, 1947, and prior to January 1, 1957, shall, at the request of the Secretary of Health, Education, and Welfare, certify to him, with respect to any veteran, such information as the Secretary deems necessary to carry out his functions under paragraph (2) of this subsection.

(4) For the purposes of this subsection, the term "veteran" means any individual who served in the active military or naval service of the United States at any time on or after July 25, 1947, and prior to January 1, 1957, and who, if discharged or released therefrom, was so discharged or released under conditions other than dishonorable after active service of ninety days or more or by reason of a disability or injury incurred or aggravated in service in line of duty; but such term shall not include any individual who died while in the active military or naval service of the United States if his death was inflicted (other than by an enemy of the United States) as lawful punishment for a military or naval offense.

(f)(1) In any case where a World War II veteran (as defined in subsection (d)(2)) or a veteran (as defined in subsection (e)(4)) has died or shall hereafter die, and his widow or child is entitled under subchapter III of chapter 83 of title 5, United States Code, to an annuity in the computation of which his active military or naval service was included, clause (B) of subsection (a)(1) or clause (B) of subsection (e)(1) shall not operate (solely by reason of such annuity) to make such subsection inapplicable in the case of any monthly benefit under section 202 which is based on his wages and self-employment income; except that no such widow or child shall be entitled under section 202 to any monthly benefit in the computation of which such service is included by reason of this subsection (A) unless such widow or child after December 1956 waives his or her right to receive such annuity, or (B) for any month prior to the first month with respect to which the Civil Service Commission certifies to the Secretary of Health, Education, and Welfare that (by reason of such waiver) no further annuity will be paid to such widow or child under such subchapter III on the basis of such veteran's military or civilian service. Any such waiver shall be irrevocable.

(2) Whenever a widow waives her right to receive such annuity such waiver shall constitute a waiver on her own behalf; a waiver by a legal guardian or guardians, or, in the absence of a legal guardian, the person (or persons) who has the child in his care, of the child's right to receive such annuity shall constitute a waiver on behalf of such child. Such a waiver with respect to an annuity based on a veteran's service shall be valid only if the widow and all children, or, if there is no widow, all the children, waive their rights to receive annuities under subchapter III of chapter 83 of title 5, United States Code, based on such veteran's military or civilian service.

(g)(1) In September 1965, and in every fifth September thereafter up to and including September 2010, the Secretary shall determine the amount which, if paid in equal installments at the beginning of each fiscal year in the period beginning—

(A) with the July 1, 1965, in the case of the first such determination, and

(B) with the July 1 following the determination in the case of all other such determinations,

and ending with the close of June 30, 2015, would accumulate, with interest compounded annually, to an amount equal to the amount needed to place each of the Trust Funds and the Federal Hospital Insurance Trust Fund in the same position at the close of June 30, 2015, as he estimates they would otherwise be in at the close of that date if section 210 of this act as in effect prior to the Social Security Act Amendments of 1950, and this section, had not been enacted. The rate of interest to be used in determining such amount shall be the rate determined under section 201(d) for public-debt obligations which were or could have been issued for purchase by the Trust Funds in the June preceding the September in which such determination is made.

(2) There are authorized to be appropriated to the Trust Funds and the Federal Hospital Insurance Trust Fund—

(A) for the fiscal year ending June 30, 1966, an amount equal to the amount determined under paragraph (1) in September 1965, and

(B) for each fiscal year in the period beginning with July 1, 1966, and ending with the close of June 30, 2015, an amount equal to the annual installment for such fiscal year under the most recent determination under paragraph (1) which precedes such fiscal year.

(3) For the fiscal year ending June 30, 2016, there is authorized to be appropriated to the Trust Funds and the Federal Hospital Insurance Trust Fund such sums as the Secretary determines would place the Trust Funds and the Federal Hospital Insurance Trust Fund in the same position in which they would have been at the close of June 30, 2015, if section 210 of this Act as in effect prior to the Social Security Act Amendments of 1950, and this section, had not been enacted.

(4) There are authorized to be appropriated to the Trust Funds and the Federal Hospital Insurance Trust Fund annually, as benefits under this title and part A of title XVIII are paid after June 30, 2015, such sums as the Secretary determines to be necessary to meet the additional costs, resulting from subsections (a), (b), and (c), of such benefits (including lump-sum death payments).

GRATUITOUS WAGE CREDITS FOR AMERICAN CITIZENS WHO SERVED IN THE ARMED FORCES OF ALLIED COUNTRIES

(h)(1) For the purposes of this section, any individual who the Secretary finds—
(A) served during World War II (as defined in subsection (d)(1)) in the active military or naval service of a country which was on September 16, 1940, at war with a country with which the United States was at war during World War II;

(B) entered into such active service on or before December 8, 1941;

(C) was a citizen of the United States throughout such period of service or lost his United States citizenship solely because of his entrance into such service;

(D) had resided in the United States for a period or periods aggregating four years during the five-year period ending on the day of, and was domiciled in the United States on the day of, such entrance into such active service; and

(E) (i) was discharged or released from such service under conditions other than dishonorable after active service of ninety days or more or by reason of a disability or injury incurred or aggravated in service in line of duty, or

(ii) died while in such service,
shall be considered a World War II veteran (as defined in subsection (d)(2)) and such service shall be considered to have been performed in the active military or naval service of the United States.

(2) In the case of any individual to whom paragraph (1) applies, proof of support required under section 202(f) or (h) may be filed at any time prior to the expiration of two years after the date of such individual's death or the date of the enactment of this subsection, whichever is the later.

PAYMENTS AND REPORTS BY STATES

SEC. 218. (e)(1) Each agreement under this section shall provide—

(A) that the State will pay to the Secretary of the Treasury, at such time or times as the Secretary of Health, Education, and Welfare may by regulations prescribe, amounts equivalent to the sum of the taxes which would be imposed by sections 3101 and 3111 of the Internal Revenue Code of 1954 if the services of employees covered by the agreement constituted employment as defined in section 3121 of such Code; and

(B) that the State will comply with such regulations relating to payments and reports as the Secretary of Health, Education, and Welfare may prescribe to carry out the purposes of this section.

DEPOSITS IN TRUST FUND; ADJUSTMENTS

SEC. 218. (h)(1) All amounts received by the Secretary of the Treasury under an agreement made pursuant to this section shall be deposited in the Trust Funds and the Federal Hospital Insurance Trust Fund in the ratio in which amounts are appropriated to such Funds pursuant to subsection (a)(3) of section 201, subsection (b)(1) of such section, and subsection (a)(1) of section 1817, respectively.

(2) If more or less than the correct amount due under an agreement made pursuant to this section is paid with respect to any payment of remuneration, proper adjustments with respect to the amounts due under such agreement shall be made, without interest, in such manner and at such times as may be prescribed by regulations of the Secretary of Health, Education, and Welfare.

(3) If an overpayment cannot be adjusted under paragraph (2), the amount thereof and the time or times it is to be paid shall be certified by the Secretary of Health, Education, and Welfare to the Managing Trustee, and the Managing Trustee, through the Fiscal Service of the Treasury Department and prior to any action thereon by the General Accounting Office, shall make payment in accordance with such certification. The Managing Trustee shall not be held personally liable for any payment or payments made in accordance with a certification by the Secretary of Health, Education, and Welfare.

FAILURE TO MAKE PAYMENTS

SEC. 218. (j) In case any State does not make, at the time or times due, the payments provided for under an agreement pursuant to this section, there shall be added, as part of the amounts due, interest at the rate of 6 per centum per annum from the date due until paid, and the Secretary of Health, Education, and Welfare may, in his discretion deduct such amounts plus interest from any amounts certified by him to the Secretary of the Treasury for payment to such State under any other provision of this Act. Amounts so deducted shall be deemed to have been paid to the State under such other provision of this Act. Amounts equal to the amounts deducted under this subsection are hereby appropriated to the Trust Funds in the ratio in which amounts are deposited in such Funds pursuant to subsection (h) (1).

COSTS OF REHABILITATION SERVICES FROM TRUST FUNDS

SEC. 222. (d)(1) For the purpose of making vocational rehabilitation services more readily available to disabled individuals who are—

(A) entitled to disability insurance benefits under section 223, or

(B) entitled to child's insurance benefits under section 202(d) after having attained age 18 (and are under a disability), or

(C) entitled to widow's insurance benefits under section 202(e) prior to attaining age 60, or

(D) entitled to widower's insurance benefits under section 202(f) prior to attaining age 62, to the end that savings will result to the Trust Funds as a result of rehabilitating the maximum number of such individuals into productive activity, there are authorized to be transferred from the Trust Funds such sums as may be necessary to enable the Secretary to pay the costs of vocational rehabilitation services for such individuals (including (i) services during their waiting periods, and (ii) so much of the expenditures for the administration of any State plan as is attributable to carrying out this subsection); except that the total amount so made available pursuant to this subsection in any fiscal year may not exceed 1 percent of the total of the benefits under section 202(d) for children who have attained age 18 and are under a disability, the benefits under section 202(e) for widows and surviving divorced wives who have not attained age 60 and are under a disability, the benefits under section 202(f) for widowers who have not attained age 62, and the benefits under section 223, which were certified for payment in the preceding year. The selection of individuals (including the order in which they shall be selected) to receive such services shall be made in accordance with criteria formulated by the Secretary which are based upon the effect the provision of such services would have upon the Trust Funds.

(2) In the case of each State which is willing to do so, such vocational rehabilitation services shall be furnished under a State plan for vocational rehabilitation services which—

(A) has been approved under section 5 of the Vocational Rehabilitation Act,

(B) provides that, to the extent funds provided under this subsection are adequate for the purpose, such services will be furnished, to any individual in the State who meets the criteria prescribed by the Secretary pursuant to paragraph (1), with reasonable promptness and in accordance with the order of selection determined under such criteria, and

(C) provides that such services will be furnished to any individual without

regard to (i) his citizenship or place of residence, (ii) his need for financial assistance except as provided in regulations of the Secretary in the case of maintenance during rehabilitation, or (iii) any order of selection which would otherwise be followed under the State plan pursuant to section 5(a)(4) of the Vocational Rehabilitation Act.

(3) In the case of any State which does not have a plan which meets the requirements of paragraph (2), the Secretary may provide such services by agreement or contract with other public or private agencies, organizations, institutions, or individuals.

(4) Payments under this subsection may be made in installments, and in advance or by way of reimbursement, with necessary adjustments on account of overpayments or underpayments.

(5) Money paid from the Trust Funds under this subsection to pay the costs of providing services to individuals who are entitled to benefits under section 223 (including services during their waiting periods), or who are entitled to benefits under section 202(d) on the basis of the wages and self-employment income of such individuals shall be charged to the Federal Disability Insurance Trust Fund, and all other money paid out from the Trust Funds under this subsection shall be charged to the Federal Old-Age and Survivors Insurance Trust Fund. The Secretary shall determine according to such methods and procedures as he may deem appropriate—

(A) the total cost of the services provided under this subsection, and

(B) subject to the provisions of the preceding sentence, the amount of such cost which should be charged to each of such Trust Funds.

(6) For the purposes of this subsection the term "vocational rehabilitation services" shall have the meaning assigned to it in the Vocational Rehabilitation Act, except that such services may be limited in type, scope, or amount in accordance with regulations of the Secretary designed to achieve the purposes of this subsection.

BENEFITS AT AGE 72 FOR CERTAIN UNINSURED INDIVIDUALS

Eligibility

SEC. 228. (a) Every individual who—

(1) has attained the age of 72,

(2) (A) attained such age before 1968, or (B) has not less than 3 quarters of coverage, whenever acquired, for each calendar year elapsing after 1966 and before the year in which he attained such age,

(3) is a resident of the United States (as defined in subsection (e)), and is (A) a citizen of the United States or (B) an alien lawfully admitted for permanent residence who has resided in the United States (as defined in section 210(i)) continuously during the 5 years immediately preceding the month in which he files application under this section, and

(4) has filed application for benefits under this section, shall (subject to the limitations in this section) be entitled to a benefit under this section for each month beginning with the first month after September 1966 in which he becomes so entitled to such benefits and ending with the month preceding the month in which he dies. No application under this section which is filed by an individual more than 3 months before the first month in which he meets the requirements of paragraphs (1), (2), and (3) shall be accepted as an application for purposes of this section.

Benefit Amount

(b)(1) Except as provided in paragraph (2), the benefit amount to which an individual is entitled under this section for any month shall be \$48.30.

(2) If both husband and wife are entitled (or upon application would be entitled) to benefits under this section for any month, the amount of the husband's benefit for such month shall be \$48.30 and the amount of the wife's benefit for such month shall be \$24.20.

Reduction for Governmental Pension System Benefits

(c)(1) The benefit amount of any individual under this section for any month shall be reduced (but not below zero) by the amount of any periodic benefit under a governmental pension system for which he is eligible for such month.

(2) In the case of a husband and wife only one of whom is entitled to benefits under this section for any month, the benefit amount, after any reduction under paragraph (1), shall be further reduced (but not below zero) by the excess (if any) of (A) the total amount of any periodic benefits under governmental pension systems for which the spouse who is not entitled to benefits under this section is eligible for such month, over (B) \$24.20.

(3) In the case of a husband and wife both of whom are entitled to benefits under this section for any month—

(A) the benefit amount of the wife, after any reduction under paragraph (1), shall be further reduced (but not below zero) by the excess (if any) of (i) the total amount of any periodic benefits under governmental pension systems for which the husband is eligible for such month, over (ii) \$48.30, and

(B) the benefit amount of the husband, after any reduction under paragraph (1), shall be further reduced (but not below zero) by the excess (if any) of (i) the total amount of any periodic benefits under governmental pension systems for which the wife is eligible for such month, over (ii) \$24.20.

(4) For purposes of this subsection, in determining whether an individual is eligible for periodic benefits under a governmental pension system—

(A) such individual shall be deemed to have filed application for such benefits,

(B) to the extent that entitlement depends on an application by such individual's spouse, such spouse shall be deemed to have filed application, and

(C) to the extent that entitlement depends on such individual or his spouse having retired, such individual and his spouse shall be deemed to have retired before the month for which the determination of eligibility is being made.

(5) For purposes of this subsection, if any periodic benefit is payable on any basis other than a calendar month, the Secretary shall allocate the amount of such benefit to the appropriate calendar months.

(6) If, under the foregoing provisions of this section, the amount payable for any month would be less than \$1, such amount shall be reduced to zero. In the case of a husband and wife both of whom are entitled to benefits under this section for the month, the preceding sentence shall be applied with respect to the aggregate amount so payable for such month.

(7) If any benefit amount computed under the foregoing provisions of this section is not a multiple of \$0.10, it shall be raised to the next higher multiple of \$0.10.

(8) Under regulations prescribed by the Secretary, benefit payments under this section to an individual (or aggregate benefit payments under this section in the case of a husband and wife) of less than \$5 may be accumulated until they equal or exceed \$5.

Suspension for Months in Which Cash Payments Are Made Under Public Assistance

(d) The benefit to which any individual is entitled under this section for any month shall not be paid for such month if—

(1) such individual receives aid or assistance in the form of money payments in such month under a State plan approved under title I, X, XIV, or XVI, or part A of title IV, or

(2) such individual's husband or wife receives such aid or assistance in such month, and under the State plan the needs of such individual were taken into account in determining eligibility for (or amount of) such aid or assistance,

unless the State agency administering or supervising the administration of such plan notifies the Secretary, at such time and in such manner as may be prescribed in accordance with regulations of the Secretary, that such payments to such individual (or such individual's husband or wife) under such plan are being terminated with the payment or payments made in such month.

Suspension Where Individual Is Residing Outside the United States

(e) The benefit to which any individual is entitled under this section for any month shall not be paid if, during such month, such individual is not a resident of the United States. For purposes of this subsection, the term 'United States' means the 50 States and the District of Columbia.

Treatment as Monthly Insurance Benefits

(f) For purposes of subsections (t) and (u) of section 202, and of section 1840, a monthly benefit under this section shall be treated as a monthly insurance benefit payable under section 202.

Annual Reimbursement of Federal Old-Age and Survivors Insurance Trust Fund

(g) There are authorized to be appropriated to the Federal Old-Age and Survivors Insurance Trust Fund for the fiscal year ending June 30, 1969, and for each fiscal year thereafter, such sums as the Secretary of Health, Education, and Welfare deems necessary on account of—

(1) payments made under this section during the second preceding fiscal year and all fiscal years prior thereto to individuals who, as of the beginning of the calendar year in which falls the month for which payment was made, had less than 3 quarters of coverage,

(2) the additional administrative expenses resulting from the payments described in paragraph (1) and

(3) any loss in interest to such Trust Fund resulting from such payments and expenses,

in order to place such Trust Fund in the same position at the end of such fiscal year as it would have been in if such payments had not been made.

Definitions

(h) For purposes of this section—

(1) the term 'quarter of coverage' includes a quarter of coverage as defined in section 5(l) of the Railroad Retirement Act of 1937.

(2) the term 'governmental pension system' means the insurance system established by this title or any other system or fund established by the United States, a State, any political subdivision of a State, or any wholly owned instrumentality of any one or more of the foregoing which provides for payment of (A) pensions, (B) retirement or retired pay, or (C) annuities or similar amounts payable on account of personal services performed by any individual (not including any payment under any workmen's compensation law or any payment by the Veterans' Administration as compensation for service-connected disability or death).

(3) the term 'periodic benefit' includes a benefit payable in a lump sum if it is a commutation of, or a substitute for, periodic payments.

(4) the determination as to whether an individual is a husband or wife for any month shall be made under subsection (h) of section 216 without regard to subsections (b) and (f) of section 216.

BENEFITS IN CASE OF MEMBERS OF THE UNIFORMED SERVICES

SEC. 229. (a) For purposes of determining entitlement to and the amount of any monthly benefit for any month after December 1967, or entitlement to and the amount of any lump-sum death payment in case of a death after such month, payable under this title on the basis of the wages and self-employment income of any individual, and for purposes of section 216(i)(3), such individual shall be deemed to have been paid, in each calendar quarter occurring after 1967 in which he was paid wages for service as a member of a uniformed service (as defined in section 210(m)) which was included in the term "employment" as defined in section 210(a) as a result of the provisions of section 210(l), wages (in addition to the wages actually paid to him for such service) of—

(1) \$100 if the wages actually paid to him in such quarter for such services were \$100 or less,

(2) \$200 if the wages actually paid to him in such quarter for such services were more than \$100 but not more than \$200, or

(3) \$300 in any other case.

(b) There are authorized to be appropriated to the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Insurance Trust Fund, and the Federal Hospital Insurance Trust Fund annually, as benefits under this title and part A of title XVIII are paid after December 1967, such sums as the Secretary determines to be necessary to meet (1) the additional costs, resulting from subsection (a), of such benefits (including lump-sum death payments), (2) the ad-

ditional administrative expenses resulting therefrom, and (3) any loss in interest to such trust funds resulting from the payment of such amounts. Such additional costs shall be determined after any increases in such benefits arising from the application of section 217 have been made.

ADVISORY COUNCIL ON SOCIAL SECURITY

SEC. 706. (a) During 1969 (but not before February 1, 1969) and every fourth year thereafter (but not before February 1 of such fourth year), the Secretary shall appoint an Advisory Council on Social Security for the purpose of reviewing the status of the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Insurance Trust Fund, the Federal Hospital Insurance Trust Fund, and the Federal Supplementary Medical Insurance Trust Fund in relation to the long-term commitments of the old-age, survivors, and disability insurance program and the programs under parts A and B of title XVIII, and of reviewing the scope of coverage and the adequacy of benefits under, and all other aspects of, these programs, including their impact on the public assistance programs under this Act.

(b) Each such Council shall consist of a Chairman and 12 other persons, appointed by the Secretary without regard to the provisions of title 5, United States Code, governing appointments in the competitive service. The appointed members shall, to the extent possible, represent organizations of employers and employees in equal numbers, and represent self-employed persons and the public.

(c) (1) Any Council appointed hereunder is authorized to engage such technical assistance, including actuarial services, as may be required to carry out its functions, and the Secretary shall, in addition, make available to such Council such secretarial, clerical, and other assistance and such actuarial and other pertinent data prepared by the Department of Health, Education, and Welfare as it may require to carry out such functions.

(2) Appointed members of any such Council, while serving on business of the Council (inclusive of travel time), shall receive compensation at rates fixed by the Secretary, but not exceeding \$100 per day and, while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government employed intermittently.

(d) Each such Council shall submit reports (including any interim reports such Council may have issued) of its findings and recommendations to the Secretary not later than January 1 of the second year after the year in which it is appointed, and such reports and recommendations shall thereupon be transmitted to the Congress and to the Board of Trustees of each of the Trust Funds. The reports required by this subsection shall include—

(1) a separate report with respect to the old-age, survivors, and disability insurance program under title II and of the taxes imposed under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954,

(2) a separate report with respect to the hospital insurance program under part A of title XVIII and of the taxes imposed by sections 1401(b), 3101(b), and 3111(b) of the Internal Revenue Code of 1954, and

(3) a separate report with respect to the supplementary medical insurance program established by part B of title XVIII and of the financing thereof. After the date of the transmittal to the Congress of the reports required by this subsection, the Council shall cease to exist.
