

Darren Webb

CEO, Mindset

Darren Webb is the co-founder and CEO of Mindset, a platform assisting those with a mental illness and their caregivers in applying for Social Security Disability benefits. As the primary caregiver for the past 15 years for a loved one battling schizophrenia, Darren started Mindset in 2019. Mindset is a social network for mental illness caregivers where users can share best practices and reach out to a community that understands their day-to-day struggles.

Darren sits on the Leadership Circle for the National Association of Mental Illness - NYC and on the National Academy of Social Insurance Task Force on AI, Emerging Tech, and Disability Benefits.
